ABOUT

A front-end site programmer and react developer, my career started when i entered computer school and continued until my bachelor's degree, but i have gained most of my experience and expertise in this field by self-taught and taking relevant specialized courses. I am interested in working with a professional team and looking for advancement in my career.

EXPERIENCE

WEB HOSTING • BERTINA • JUL 2020 - DEC 2020 (6 MONTHS)

Bertina company operates in the field of hosting and server services and I was working as a part-time technical support in this company. Configuring hosting and services such as SSL configuration, Domain, etc. was one of my activities in this company. On the Home tab of the ribbon, check out Styles to apply the formatting you need with just a click.
